- wet tissue - for cleaning your hands or the table.
- an apron - to protective your clothes.

<Magical whip>

Drying time depends on temperature, humidity and size. Do not touch the whip until it dries fully. It may take more than 2-3 days to dry the part which is not exposed to air. The smell of the whip may disappear after it dries. The whip might shrink due to the evaporation after drying. The whip may discolor after it's exposed to the air for a long time. Decoration part colors may occur color transfer onto the whip. Metal parts may get rusty by whip. If metal parts are not coated, they may get rusty with magical whip. Wipe a nozzle tip off with wet wipes etc. after use. If the whip on a nozzle tip dries, it may difficult to clean it. We recommend using the magical whip as soon as possible after opening. Store in a cool, dry place away from direct sunlight.

Contents

How to use the card case

※ The following picture is not included in this kit.

1 Take off the strap from the card case.

2 Slide the cover in the direction of the arrow and remove it.

Basic

1 Open a cap and remove an inner lid. Attach a nozzle tip.

2 Remove the nozzle tip, and close the cap.

TIP

Please wipe the nozzle tip with wet tissue after use. Otherwise, the whipped cream will dry in the nozzle.
