

[Tools needed]

LED lamp, craft bond glue, glue stick, utility knife, cutting mat, scissors, tweezers, ruler, pencils, toothpick, sand paper, nippers, flat-nose pliers, round-nose pliers

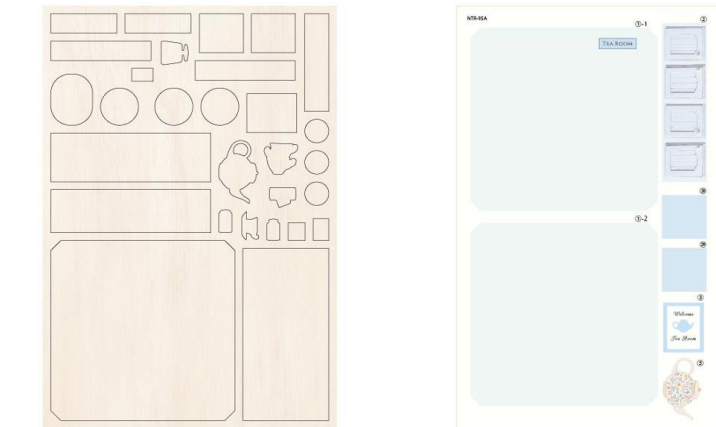

[Not necessary but convenient]

craft buffer, tray for parts, thick papers, paper, silicone mat, glue-gun, wet wiper

[Materials included]

Wooden base

Paper parts

* Images may vary to actual contents. * For materials in this kit, their colors, shapes, sizes and pattern may vary, due to manufacturing process. Natural wooden plates are naturally generated, their colors and wood grain will not be identical. * The wooden plate may warp slightly due to the excessive humidity. * For the metal parts, it is possible to have certain amount of flaws on the surface, due to plate coating process.

[About Preserved moss]

* Preserved moss may get on your clothes, wall or floor. * If moss are exposed to fluorescent light or direct sunshine for long time, the colors may fade. Store in a cool, dry place away from direct sunlight. * Depending on the season, the colors, shapes and sizes of moss may vary. * This product is specially for craft. Do not eat.

Read the following before you start.

* Please check if the contents are all included. * Please refer to the images and TIP reference while building your model.

* You will need:

a toothpick...to use bond glue and/or resin.
a wet towel... to wipe your hands and to clean your workplace.
paper... when using bond glue and to protect surfaces while working.
tweezers... for detail work.
A glue gun is also useful instead of a bond glue.

* Work away from direct sunlight and UV ray. When you don't use lamp, please turn it off. *Place a cardboard and a silicone mat under your work, so as to keep your work desk clean. Hence, you can move your work into the lamp right away and make it more convenient. * Printed images may be come off when rubbing the paper parts with an eraser or a wet towel.

PREPARATION · REFERENCES

Paper parts--- numbers in ○, Parts (Wooden parts) cut out from the Wooden Base--- numbers in ●

Wooden base

Separating the wooden pieces from the wooden plate

Cut off the wood pieces with a craft knife as shown in the picture above.

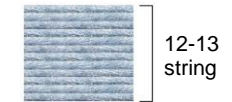

Tip!

* This wooden plate is laser processed. Wipe cut surfaces to remove dirt and dust before use.
* Sand cut surfaces after removal.

Craft band

Ensure use the correct color of band for each design element.

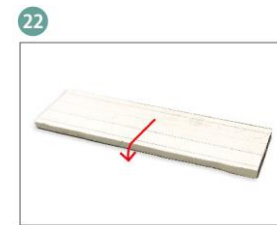

*The craft bands vary slightly in width or the number of twisted paper strings, depending on their colors.

Paste Paper parts on Wooden parts

Paste Paper parts on one side. ①~②①

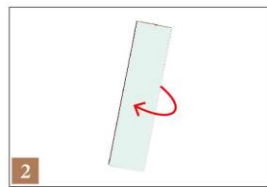

*Paste on the both sides of ①.

Paste together wooden parts and paper parts of the same number. ②⑧ ②⑨ will be used in the next process.

Paste Paper parts with only one side folding back.

Wrap around and paste. ②③~②⑦

Coating parts with resin ⑤~②①

Apply resin on the paper parts.

Harden them.

Harden resin

Time required
LED resin: 1~2 min.

*Hardening time depends on the season, humidity and size of your artwork.
Please read carefully the hand manual for the resin before you start.

Harden the resin coated parts with LED lamp.

Remove burrs with scissors or a craft buffer.

Tip!

Wipe sanded surfaces to remove dirt and dust carefully with a soft cloth. Covering sanded surfaces with resin makes the pieces beautiful finish.

Create a base

Assemble ② ②② ②⑧ ②⑨ with Paste ②⑧ ②⑨ the craft bond glue.

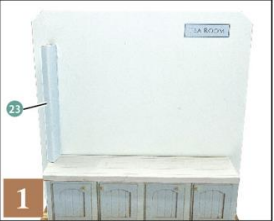

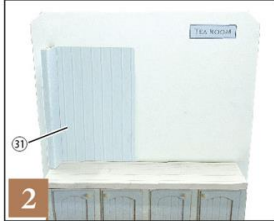

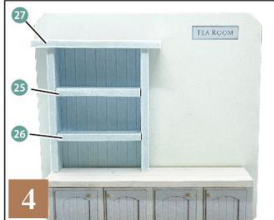

Caution!

Keep out of reach of children and pets. Maybe harmful if swallowed.

Manufacturer: Eruberu Co., Ltd

2-1-20 Ekimae Ibaraki Osaka Japan <https://eruberu.co.jp/>

Example of completed design

1 Apply the craft bond glue to 23 and paste it.

2 Paste 31 aligning 23.

3 Apply the glue to 24, and paste it aligning 31.

4 Apply the glue to 25, 26, 27 and paste them to the wall.

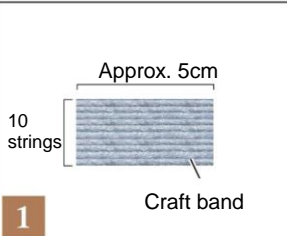

Shiny bead

Paste a shiny bead with the glue.

Flower

Preserved moss

1 Split the craft band into a 10 strings.

2 Wrap the craft band around the pencil to make it into a tube. Paste both ends of the craft band together.

Create Wire parts

Curve the edges of the wire with the flat-nose pliers or round-nose pliers **before cutting with the nippers.**

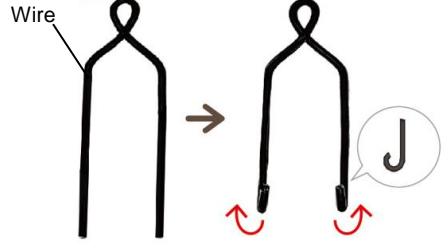

* Extensive bending of wire may cause breakage.

* Please see Japanese instruction page2. There is an actual size pattern.

How to curve a wire

Pinch the end of the wire and bend it.

Enjoy stylish arrangement
