

[Tools needed]

paper palette, water cup, craft bond glue, glue stick, double-sided tape, scotch tape, utility knife, cutting mat, sand paper, scissors, tweezers, ruler, pencils, toothpick, needle-nose pliers, round-nose pliers, nippers, eyeleteer, cotton swab

[Not necessary but convenient]

tray for parts, wet wiper, tissue, paper, glue-gun

[Materials included]

* Images may vary to actual contents. * For materials in this kit, their colors, shapes, sizes and pattern may vary, due to manufacturing process. Natural wooden plates are naturally generated, their colors and wood grain will not be identical. * The wooden plate may warp slightly due to the excessive humidity. * Make an eye pin straight before use. * For the metal parts, it is possible to have certain amount of flaws on the surface, due to plate coating process. * Because of the polyester cloth, red thread may be stucked.

[About Preserved moss]

* Preserved moss may get on your clothes, wall or floor. * If moss is exposed to fluorescent light or direct sunshine for long time, the colors may fade. Store in a cool, dry place away from direct sunlight. * Depending on the season, the colors, shapes and sizes of moss may vary. * This product is specially for craft. Do not eat.

Caution!

Keep out of reach of children and pets. Maybe harmful if swallowed.

Manufacturer: Eruberu Co., Ltd

2-1-20 Ekimae Ibaraki Osaka Japan <https://eruberu.co.jp/>

Read the following before you start.

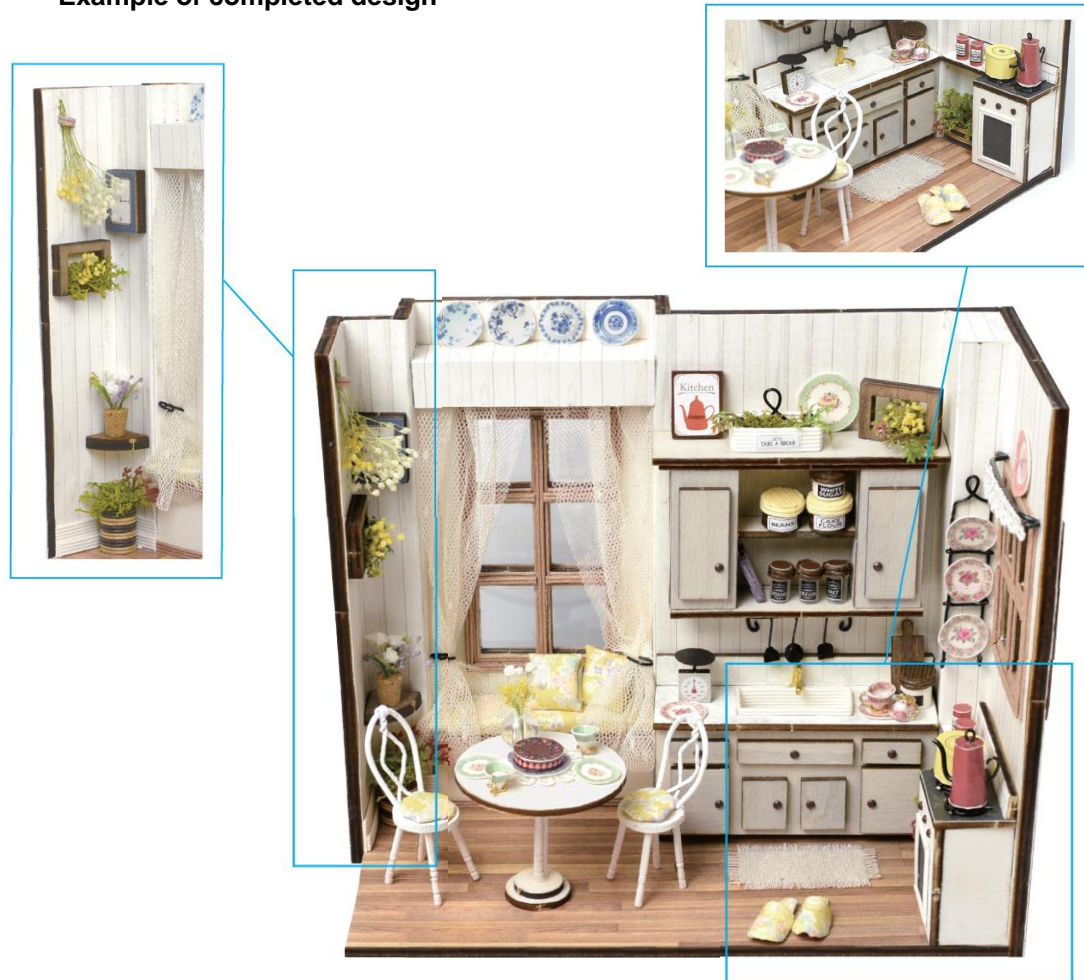

* Please check if the contents are all included. * Please refer to the images and TIP reference while building your model.

* You will need:

- a toothpick...to use bond glue and/or resin.
- a wet towel... to wipe your hands and to clean your workplace.
- paper... when using bond glue and to protect surfaces while working.
- tweezers... for detail work.
- A glue gun is also useful instead of a bond glue.

- * Please adjust the length of natural flowers and preserved moss based on the place where you want to use it. Divide the materials and dry run before finally fixing to the products.
- * Printed images may be come off when rubbing the paper parts with an eraser or a wet towel.

Example of completed design

Painting

white	brown black 2 : 1	white black 1 : 1

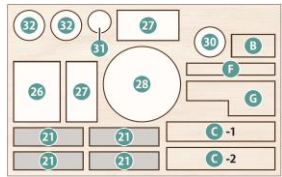

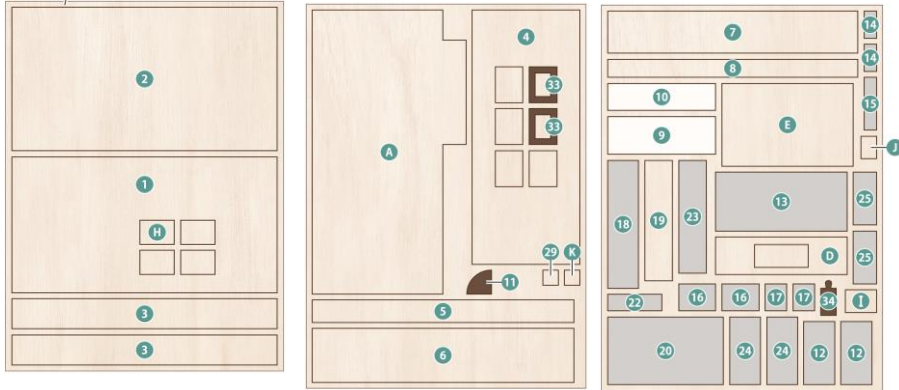

White is used in 59. Black is used in 63 and 65.

Separating the wooden pieces from the wooden plate

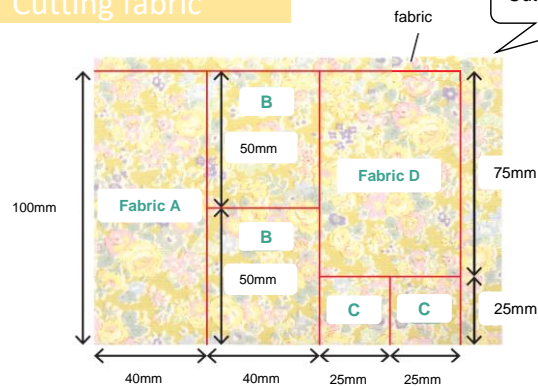

Tip!
* This wooden plate is laser processed. Wipe cut surfaces to remove dirt and dust before use.
* Sand cut surfaces after removal.

Paint the wooden plates before separating plates.

Cut an edge off the toothpick at 45 degrees.

Cutting fabric

Cut the fabric in red line.

From the fabric, pull out some of the thread to make it loosen.

Preparing wire parts

Creating the shape before cutting wire with nippers.
* Extensive bending of wire may cause breakage.

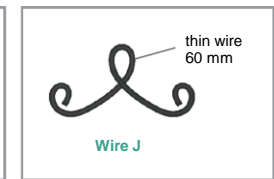

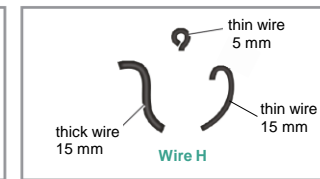

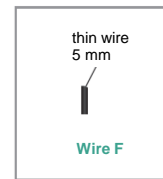

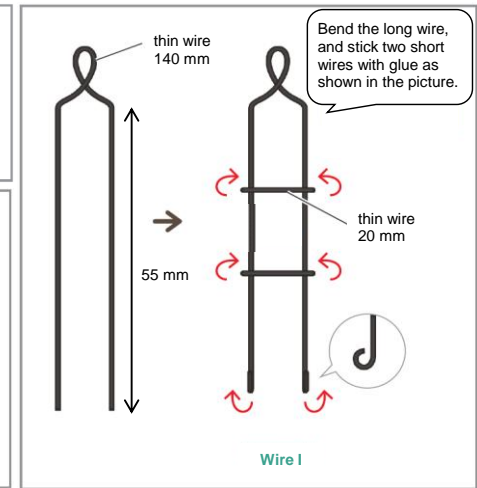

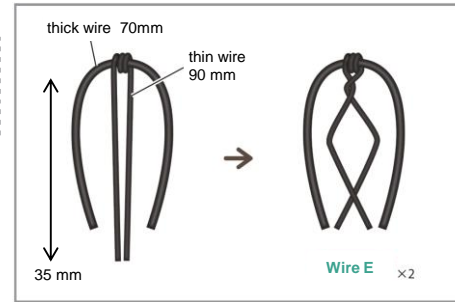

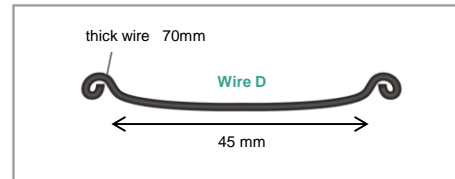

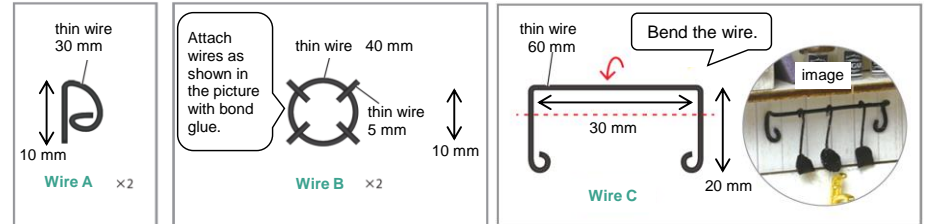

<Bending wire>

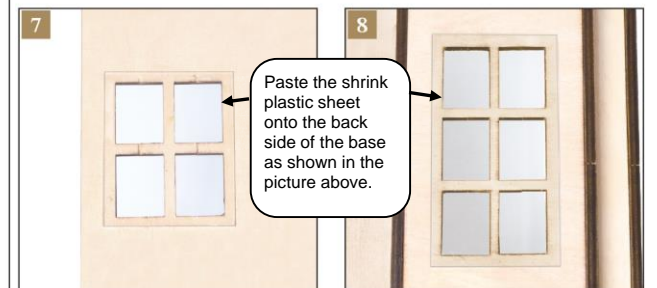

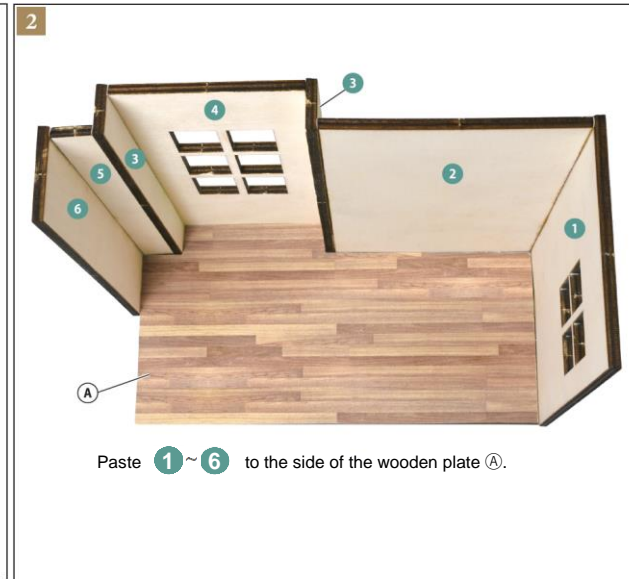

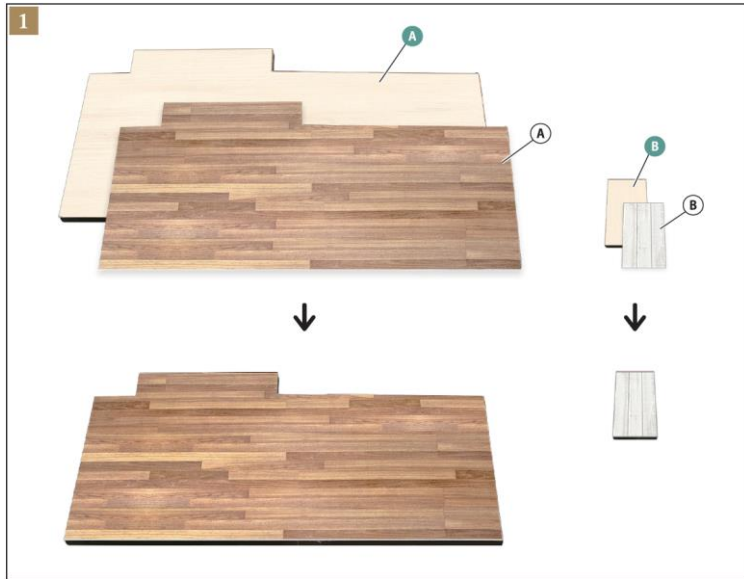

Creating a circle in the material with the end of a pen.

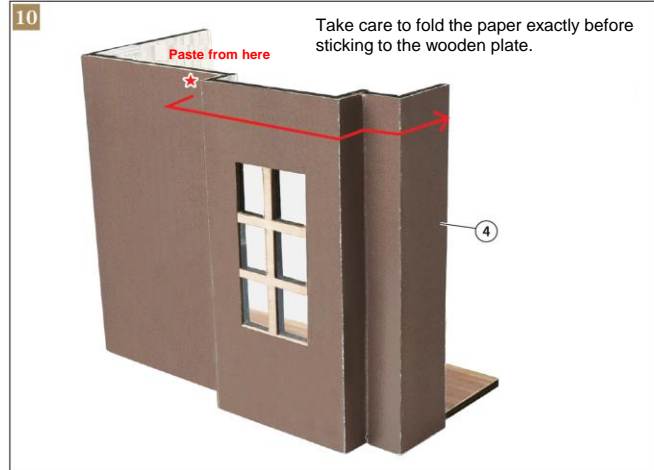

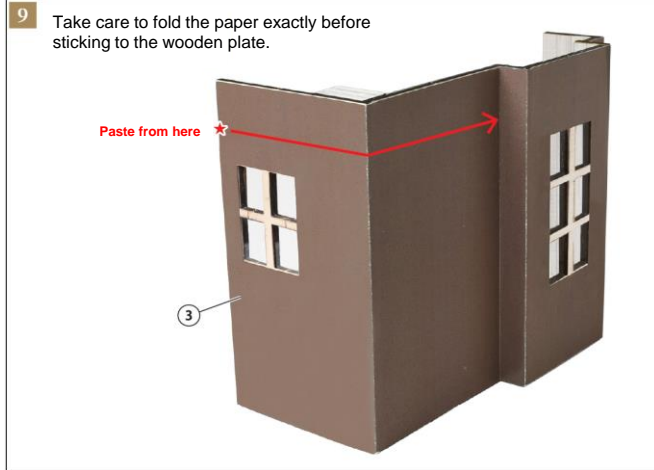

Pinch the end of the wire with pliers, and bend it.

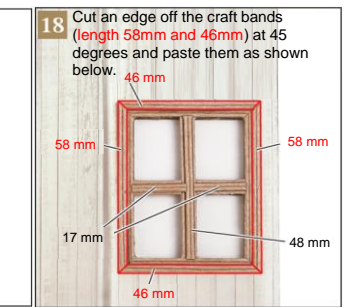

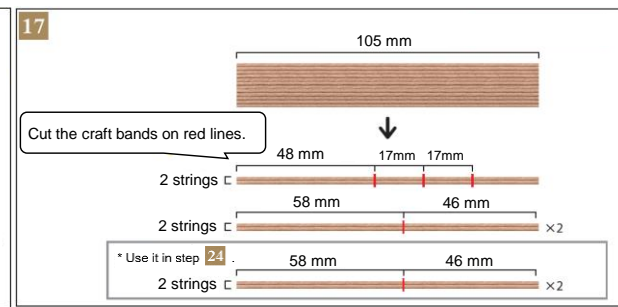

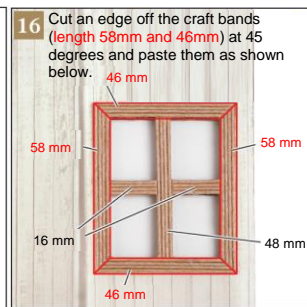

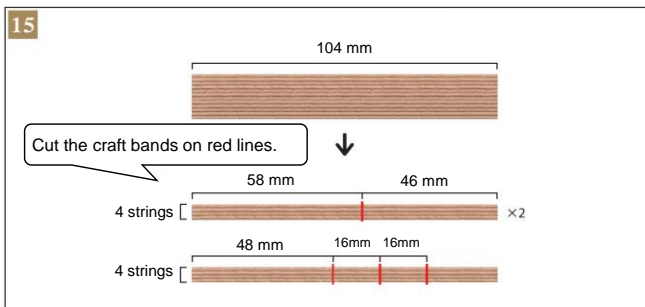

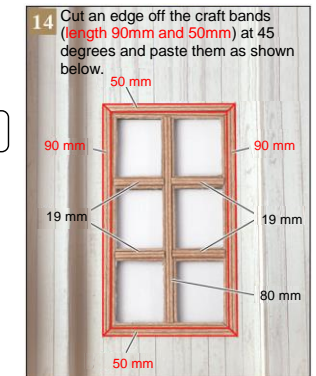

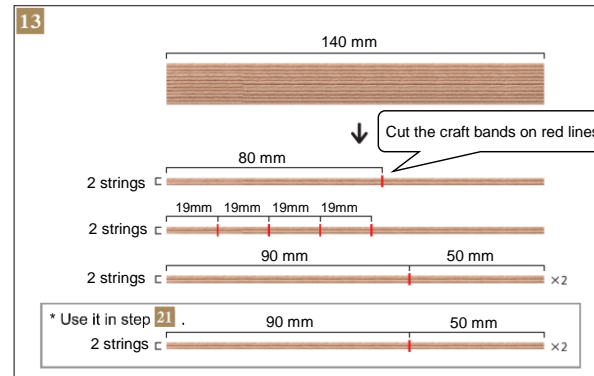

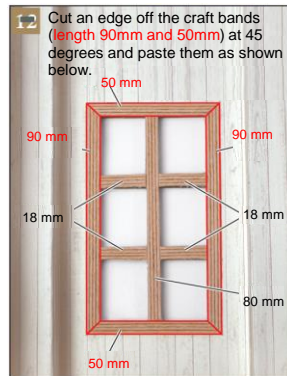

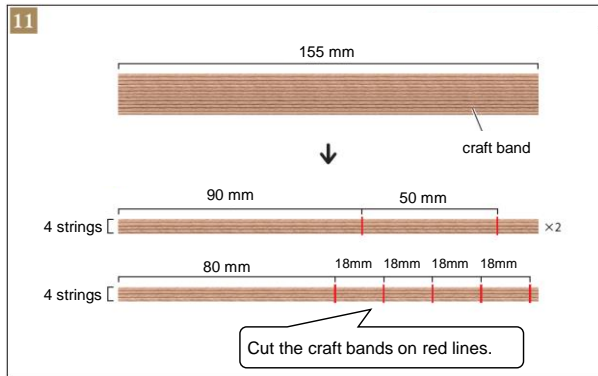

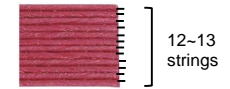

Please see numbers and letters: Paper parts ○ Wooden parts ● toothpick, fabric, hemp fabric and wire ○

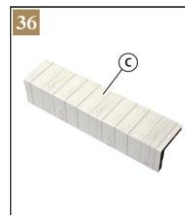

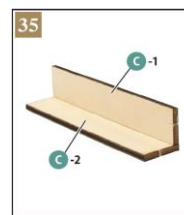

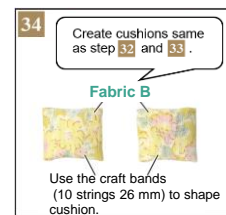

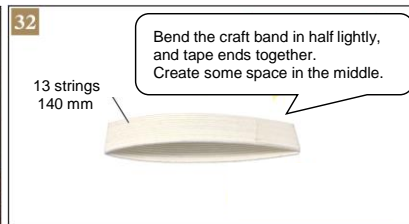

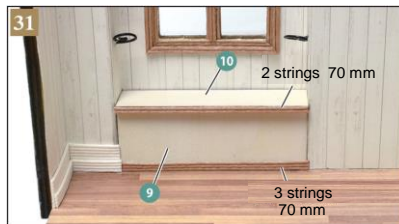

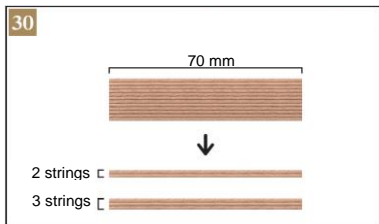

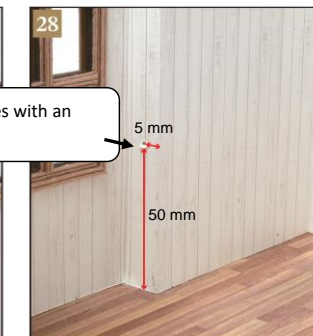

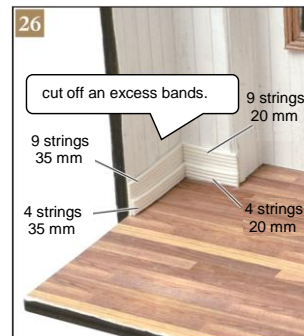

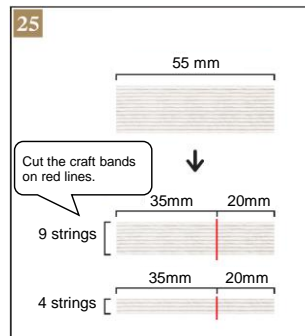

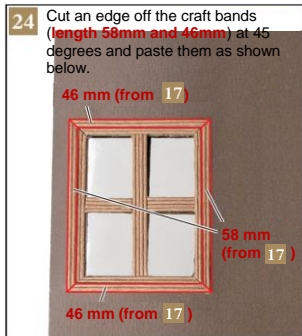

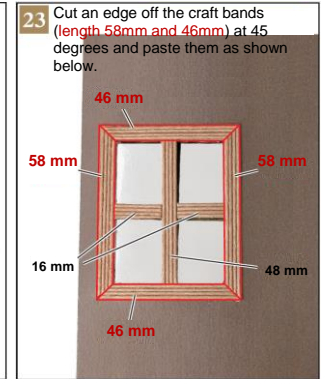

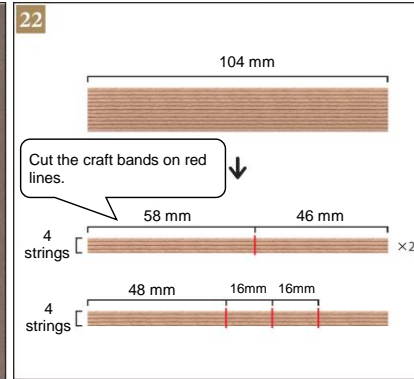

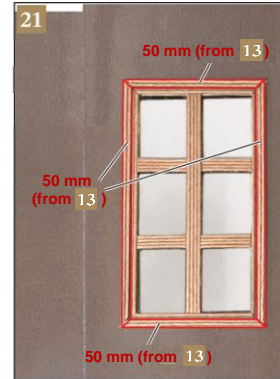

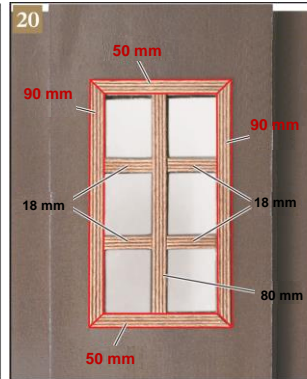

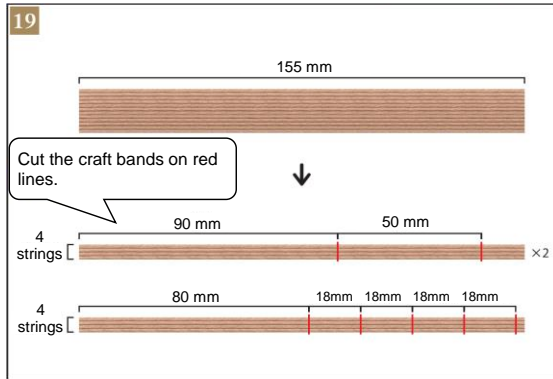

Cut a few millimeters into the craft band with scissors. Put the PP cutter into the band and slide it through to create strings for the window frame etc.

Ensure use the correct color of band for each design element.

Cut an edge off the craft bands (length 90mm and 50mm) at 45 degrees and paste them as shown below.

Creating kitchen

39 Add etching on the craft band and bend it.

Tape the craft band as shown below.
